

# Pots & Pans

## Fila Brazillia

There was a band called the Pots and Pans.  
They made this noise that people couldn't stand  
and when they toured all across the land,  
the people said, "No, no, no!"  
But the drummer said, "Yes, yes, yes, this tour is a test."

Has your skin grown thick from bands that make you sick?  
Has your skin grown thick from a thousand stinging pricks?  
Have you been made dense standing upon the fence?  
Have you been made dense from polish and pretense?

Well, this is where it stops.  
This is where it ends.  
Let's tear this whole place down and build it up again.  
This band's a beating heart and it's nowhere near its end.
