

If You Could Read My Mind

Sarah Geronimo

Everyday I realize a feeling that
I cannot hide
From you my friend if you could read
my mind
Everyday I'm hypnotized everytime
you look and smile at me
I see the heaven in your eyes And everyday's a special day and
every place a special place
With you my friend when I'm with you Chorus:
If you could read my mind if you could
only see the signs
I'll be yours from now just take this
heart of mine
I will be your everything and more
I could be the one you're looking for
For all we know my friend for all we know
If you could read my mind I never thought that fairy tales
Wishing wells or happy tales come true
But they do, Everyday (time) with you
Everytime I'm feeling blue
All I have to do is think of you and then
You'll fill my heart with love I never knew I'll never waste a single day
With you I'm always all the way
With you my friend when I'm with you Repeat Chorus Bridge:
When problems get me down
Only you can make the day end right
When I'm with you If you could read my mind if you could
only see the signs
I'll be yours from now just take this
heart of mine
I will be your everything and more
I could be the one you're looking for
For all we know my friend for all we
know
For all we know my friend for all we
know
If you could read my mind
If you could read my mind...if only

you could read my mind
