Highest High

The Brand New Heavies

Highest high, deep inside
Lifts you up, sets you free nothing else can
Highest high, highest high
Takes you there, brings you back againBig dreams never sleep, no
I made a promise to myself, I've got to keep
I, I was down for something, that was so for real
Always looking outside for the one thing I could feelBut when my faith was under fire, I never turned around
And never once backed down from my desire
My heart and soul still had control and I knewI, I had the highest high that power deep inside
That lifts you up and sets you free like nothing else can
I got the highest high, love is the highest high
That takes you there and brings you back again, yeahEver since that day, yeah
I know I'll never feel alone or be afraid
I, I was on a mission, on a search for fear
Trying to find the reason for the trouble that I've beenBut when my faith was under fire, I never turned around
And never once backed down from my desire
My heart and soul still had control and I knewI, I had the highest high that power deep inside
That lifts you up and sets you free like nothing else can
I got the highest high, love is the highest high
That takes you there and brings you back again, yeahI got the highest high that power deep inside
That lifts you up and sets you free like nothing else can
I got the highest high, love is the highest high
That takes you there and brings you back again, yeahI'm high, I'm so high
Feet don't touch the ground, head's up in the clouds
I'm high, I'm so high
Feet don't touch the ground, head's up in the cloudsI was down for something that was so for real
Always looking outside for one thing I could feel
And when my faith was under fire, fire
I never turned round and I never backed down, yeahThe highest high, deep inside
Lifts you up, sets you free nothing else can
The highest high, highest high
Takes you there, brings you back againThe, the highest high deep inside
The, the highest high deep inside
The, the highest high deep inside
The highest high
