

Lock 'Em Away

All

dont like what they do, lock them away
dont like what they say, lock them awaydoes your child display the seven warning signs? lock them away
they're not quite what you had in mind, lock them awaywe've got drugs and therapy,
we will fix them for a fee
erasing the mistake, lock them awaythree strikes and youre out, lock them away
they're guilty beyond doubt, lock them awayignore the poor, build more jails,
dont ask where their system fails,
erasing the mistake, lock em awaydont want to see them, wont take their calls
reduce them to a numbered room
like they were never there at allthe old, the sick and lame, lock them away
we ought to be ashamed the way we lock them awayjust you wait, we've got a place
when you no longer pull your weight
erasing the mistake
erasing the mistake
lock 'em away
