

Night

Janet Jackson

I woke up in heaven in the morning
With the biggest smile upon my face
Cross the other side of bliss
I proof that Heaven does exist
I'm offering my gratitude
For what is meant to be
Is 'bout to break through
Love is taking over
Like a tidal wave
Our universe is aligned
Feeling the love tonight
Love is taking over
Showing us the way
Darkness starts to fade
After the love tonight
I woke up in heaven in the morning
With the biggest smile upon my face
Way beyond the highest high
I feel love pumping through your body
Gonna redefine our attitudes
Like you better be good to me
And I better be good to you
Love is taking over
Like a tidal wave
Our universe is aligned
Feeling the love tonight
Love is taking over
Showing us the way
Darkness starts to fade
After the love tonight
I woke up in heaven in the morning
With the biggest smile upon my face
Love is taking over
Like a tidal wave
Our universe is aligned
Feeling the love tonight
I woke up in heaven in the morning
With the biggest smile upon my face
I woke up in heaven in the morning
