You Be My Friend

Daisy Chainsaw

You be my friend
You be my friendYou're certain, convicted
Younger and beautiful
I am uncertain
Not sure direction lessYou bare your soul
And you torment convincingly
I'm biting my nails
Do I look ill at ease?You be my friend
You be my friendYou are so pretty
And witty and natural
Charming engaging with
And up to date, throw itI got a challenge
You stand heroically
You yeah why not you
I bow down not quite so well
Not so wellYou be my friend
You be my friendYou be my friend
You be my friend
You be my friend
You be my friend
