Lemonade

Iris Temple

[2X]
Is somethin' wrong?
is somethin' wrong?
With wishin for better days, where we can get along and sip on lemonade.

Some God is looking at me from afar
A fortress scorchin'
Surface burnin' images of flowers through my thoughts
How'd you do be with me sorceress?
I sit on porches on captivated by your form
You slip me portions from our treasure trophs
My heart is beating like a metronome
I soak it in until the day that I'm dead and gone
I see kaleidoscopes that dance until the light is gon'
My paradise is riding home
Might go outside, the night has come
To dance for the ones we've lost
To dance for the ones we love
Dance for the shit we got
Dance till the rising sun
I know your light is for everyone...
You make me feel like I'm the only one...

[Chorus]

Come with me, till your dreams have gone and gone away
Your mine
You're gleaming on the sun light (light)
You don't know all the things I've done
And you get judged from the side of one
You won't forget about me, you won't regret things you told me that
But what happens when you get turned away?
What happens when you can't no longer hesitate?
I'll remember you...
