

Walk Away

Casey McQuillen

We were best friends
It didn't happen
For a long time
And then you saw me
Looked at me plainly
Searching for a sign

I thought you finally forgotten about her
But deep down I knew you were here forever

Fine, Walk away
It's not much there's to say
I won't even miss the way
Your arms felt around me
Fine, Walk away
The price I have to pay
For meeting you that fateful day
And hoping you would see me
Hoping that we could be
Loving when you kissed me
Her beauty's only skin deep

Your eyes are so blue
Kind of like you
I thought you were so strong
And then you saw me
Kissed me so softly
But boy was I wrong

I thought you had finally forgotten about her
But deep down I knew you were here forever

Fine, Walk away
It's not like there's much to say
Won't even miss the way
Your arms felt around me
Fine, Walk away
The price I have to pay
For meeting you that fateful day
And hoping you would see me

Hoping that we could be
Loving when you kissed me
Her beautyâ€™s only skin deep

Can you turn the light off
If it was never on?
Can you forget the lyrics
If you never knew the song?

Fine, Walk away
It's not like there's much to say
Won't even miss the way
Your arms felt around me
Fine, Walk away
The price I have to pay
For meeting you that fateful day
And hoping you would see me
Hoping that we could be
Loving when you kissed me
Her beautyâ€™s only skin deep

Fine, Walk away
It's not like there's much to say
Won't even miss the way
Your arms felt around me
Fine, Walk away
The price I have to pay
For meeting you that fateful day
And hoping you would see me
Hoping that we could be
Loving when you kissed me
Her beautyâ€™s only skin deep
