

Universe Electric

Angie Miller

Wake up and shake off the dust
The world is waiting
First light, ready your eyes
A new day breaking
Theres no divide it's all in our minds
Static in the air (static in the air)
Fill up the void and shut off the noiseUniverse electric, we're connected
Feel the pull, feel the pull
Universe electric, when we let it
Take ahold, take ahold
We know we're not alone
As one, we've just begun
To light this fireOh no, never let go
Let the flames burn higher
Theres no divide, it's all in our minds
Static in the air (static in the air)
We've heard the cry so burn up the skyYou could choose to spend your years
All alone and disappear
But I'm not, no I'm not
You can try to fade away
But no one wants to fade away
Oh no, oh no
