Stop Sign

Kic

She was banging
But lovin' was cold
Keep it up it's going to be a love TKO
Trying to find my direction
Instead of feeling the love you break it all
Down into section
Cos i want you baby
And i want you lady
Don't stop acting shadey
Take a detour i'msinging to you lady
Whats the matter don't you love me
Don't you really care
Oh im about to loose my mind with your stop sign
I didnt mean to get myself so involved
Second time around back round we go
It feels right when im next to you
So why you got to make it misty blue

She's telling me why
She's thinking that she need another guy
Somebody that ain't gonna make her cry
Lady i can be that
But your stop signs not letting you see that
Why wont you let me hold you?
In my warm embrace
Why don't you let my love shine
In your stop sign
Oh no
Check the flow
You ready with the mike?
Lets go! My sound Abstract
Cut the loop and bring the beat back
Bounce to the hot new flavour
Turn up the high end on the system fader
It ain't that i hate ya
But i don't wanna know
Yo, I'll see you later
