

My Kind of Man

Vance Joy

Don't walk too proud, don't talk too loud
And make it up as you go
And take whatever you are given
And leave what you think you know
At the doorAs she said
You could be my kind of man
And will you do the best you can
And I could use a little time
I need to straighten out my mind
And I'm gonna break on, break on through
And I close my eyes and think of you, hmAnd she said
You could be my kind of man
And will you do the best you can
Find a thing that you love
Find a thing you understand
Find a thing that you love
Find a thing you understandYou could be my
You could be my
You could be my kind of man
You could be my
You could be my
You could be my kind of manFind a thing that you love
Find a thing you understand
Find a thing that you love
Find a thing you understand
Find a thing you understand
