

Step Down

Motörhead

Well, I'll see you later, but I don't know when
Don't know if I'm coming, coming round again
I don't care, for that they might stare
I know I mustn't step down I ain't no beauty, but I'm a secret fox
I'm gonna put your presents, inside my favorite box
And then so long, the universal song
I know I mustn't step down
