

Hero

Noah

If you ask me how I feel
I want to burn my lonely soul
Fly me through the danger zone
Like a shadow in your home So let me be your hero
And cast away your sin above
Let me be your hero
And cast away the sin you own Fly me now and don't despair
I'll be flying through your door So let me be your hero
And cast away your sin above
Let me be your hero
And cast away your sin [Repeat x5:]
Stand up I'll be on your side
Take my hand today
We can fly together
Let me lead the way So let me be your hero
And cast away your sin above
Let me be your hero
And cast away the sin above Your hero
(Let me lead the way)
Your hero
(Let me lead the way)
