Morning Sun

Incognito

Once our love was drifting
I felt left out and alone
There was nothing more that I could do
I lost my hold on youAnd through it all I kept my faith
In the good things from the past
Then one day out of the blue
You came back to meIn time everything changes
Nothing stays the same
Goes for you, goes for me and for every one
Were like the morning sunIn time everything changes
Troubles disappear
Goes for you, goes for me and for every one
Were like the morning sunHolding on to something
Cause it feels so right
(So right, so right, so right)
You dont doubt it for a minute
Day or nightYou know youve got to keep the faith
Dont let it slip away
Knew one day that youd return
And together we will stayWith the passing of time everything changes
If we believe theres a future
Take the time to remember
That the setting sun will always rise again
