

When You Disappear

Observer Drift

You might feel so small
When you fail to see it all

You might not end right (?)
If no ones on your side

And you think you'll stay calm
And never feel lost
oh oh oh

So when you disappear
I hope you feel a need to come back here
(Come back here)

When you disappear
When you disappear
When you disappear
Come back here

When you disappear
When you disappear
When you disappear
Come back here
