

# Avalanche In B

## Cold War Kids

Oh, avalanche in apartment B  
Everywhere white's what I've seen  
I've never lived alone so near the ocean breeze  
I can finally afford high anxiety  
Reach up, cold air hits your hands  
Snow packs like cement you can't stand  
Remain calm while rescue makes plans  
Oh, avalanche in apartment B

All at once a weight dropped on me  
Sweating at the bar fifteen minutes ago  
We were yelling our heads off  
Now I'm surrounded by snow  
Reach up, cold air hits your hands  
Snow packs like cement you can't stand  
Remain calm while rescue makes plans  
The earth must contract and expand
