# Everybody Is Somebody

## Lifehouse

Stumbling I fall away it's hard to make a change
Easy to be who you are when no one knows your name
Walking past the lonely walls with eyes as cold as stone
Climb inside the emptiness it's safe when you're aloneDon't be alarmed
Don't be afraid of what you are
Just look around
Everybody is someone
Everybody is someoneAll this time you lived alone without a memory
Built your life upon the ground that sinks beneath your feet
Step outside the misery for once you feel alive
Second chances only come around once in a lifeDon't be alarmed
Don't be afraid of what you are
Just turn around
Everybody is someone
Everybody is someoneDon't be alarmed
Don't be afraid of what you are
Just turn around
Everybody is someone
Everybody is someoneDon't be alarmed
Don't be afraid of what you are
Just look around
Everybody is someone
Everybody is someone
