Deluca

Flake Music

A stain that sticks like glue Your expression when you left I'll never change your style Severed and untied

I failed to hold your hand Self and unwise I'll never make you smile It's like a train with no track

A stain that sticks like glue Your expression when you left I'll never change your style Severed and untied

I failed to help your head I was selfish and unwise I'll never make you smile A train runs with the track
