

Song For You (feat. Karmin)

Big Time Rush

Waking up from another day
I'm feeling so insane
'Cause ever since I saw your face
I got it tattooed on my brain Did you know that you came and you got me like this?
'Cause I know you're the one that I wanna be with
You gotta know I'd do anything
To get you to notice me What I gotta do to get you into my life?
I could be your bad boy or baby I could be nice
I would give you all the stars
If you give me the night
Come on, eh, eh, eh There's a million pretty girls all over
But they got nothing on you
Been all around the world
And no one gets me like the way you do
Baby I thought that you should know
None of the rest are even close
There's a million pretty girls all over
But you know this song's for you
This song's for you Now I got your attention babe
There's some things I need to say
Like you're the one that I dream about
It's on my mind like every day (every day) Did you know that you came and you got me like this?
'Cause I know you're the one that I wanna be with
You gotta know I'd do anything
To get you to notice me
So tell me What I gotta do to get you into my life?
I could be your bad boy or baby I could be nice
I would give you all the stars
If you give me the night
Come on, eh, eh, eh Got my head in the clouds
And I'm walking on it
Want you all to myself
And I don't want to share
Where you wanna go?
'Cause I'm taking you there
Come on, eh, eh, eh There's a million pretty girls all over
But they got nothing on you
Been all around the world
And no one gets me like the way you do

Baby I thought that you should know
None of the rest are even close
There's a million pretty girls all over
But you know this song's for you
This song's for youYo, one in a million
So baby what are the odds?
A million miles away
But I know this is my song
You know you got the right girl
With the right muscle
Keep you reeled in but won't knock the hustle
I don't want you to want me
No I don't wanna be wondering
If you wanna be with me
When the skies get to thundering
I still want my heart fluttering
Every day without a shadow of a doubt
Baby all you gotta sayThere's a million pretty girls all over
But they got nothing on you (nothing on you)
Been all around the world
And no one gets me like the way you do
Baby I thought that you should know
None of the rest are even close
There's a million pretty girls all over
But you know
This song's for you
This song's for youWhat I gotta do to get you into my life?
I could be your bad boy or baby I could be nice
I would give you all the stars
If you give me the night
Come on, eh, eh, ehThis song's for youGot my head in the clouds
And I'm walking on it
Want you all to myself
And I don't want to share
Where you wanna go?
'Cause I'm taking you there
Eh, eh, ehThis song's for you
This song's for you
This song's for you
