In the Middle There

Luce

It was a dark, depressing party 'til she came into the room
She wore a neon colored vinyl skirt that brightened up my view
There was a mutual attraction of a woman and a man
But it was me who had the growing situation on his handsSo I just stood there in the middle there, yeah aw yeah
She moved a little closer, I felt my blood begin to rise
I saw that she was coming over by that look inside her eyes
So I just stood there in the middle there, yeah aw
I just stood there in the middle thereI just stood there in the middle wondering where I should put my hands
To cover up the rising thoughts of times to come, my future plans
And all the while she stood there staring, bearing down on everything
While I just stood there wondering what she could seeNow what's the mess?So I cursed at Mother Nature for making me look like such a jerk
I thought of sticks and bricks and pushing pins
But nothing seemed to work
And then with the prettiest of smiles she walked up and said, "Hello"
And then I watched her as her eyes gazed down on me below
So I just stood there in the middle there, yeah aw
I just stood there in the middle thereI just stood there in the middle wondering where I should put my hands
To cover up the rising thoughts of times to come, my future plans
And all the while she stood there staring, bearing down on everything
While I just stood there wondering what she could seeI just stood there in the middle wondering where I should put my hands
To cover up the rising thoughts of times to come, my future plans
And all the while she stood there staring, bearing down on everything
While I just stood there wondering what she could seeI just stood there in the middle wondering where I should put my hands
To cover up the rising thoughts of times to come, my future plans
And all the while she stood there staring, bearing down on everything
While I just stood there wondering what she could seeWell I stood there in the middle there
Yeah, I've stood there in the middle there
Yeah, I've stood there in the middle there
Yeah, I've stood there in the middle there
...
