

# Ven Ven Connmigo

Joey Lawrence

Tell me what you're thinking  
You there with the long brown hair  
What is it you're wishing?  
If it's love, Mujer, then I'll be there  
Tell me what you want, girl?  
If it's arms you need, I'll hold you tight  
What is it you're feeling?  
Tell me everything, we got all night  
I see your lonely heart is longing to be loved  
Put all your fears away  
If you listen, this is what I'd say  
Ven ven connmigo  
I'll take you where you've never been  
Ven ven connmigo  
I'll bring you back to life again  
Ooh, oh, my senorita  
I can't bear to see you by yourself  
Here in this cantina  
When I know we could be somewhere else  
I know your broken heart is aching  
If you just look my way  
I'll tell you what I have to say  
Ven ven connmigo  
I'll take you where you've never been  
Ven ven connmigo  
I'll bring you back to life again  
Ven ven connmigo  
I wanna take you by the hand  
Ven ven connmigo  
If you let me, I will be your man  
Ooh, come with me  
I see your lonely heart is longing to be loved  
If you just look my way  
I'll tell you what I have to say  
Ven ven connmigo  
I'll take you where you've never been  
Ven ven connmigo  
I'll bring you back to life again  
Ven ven connmigo  
I wanna take you by the hand  
Ven ven connmigo  
If you let me, I will be your man  
Ven ven connmigo  
Won't you, won't you come with me?  
Ahh, ven ven connmigo  
I'll bring you back to life again  
Ven ven connmigo  
Won't you, won't you come with me
