

Liar

Madcon

It seems to be the truth. (Seems to be the truth)
I guess she cheated on me too. (Cheated on me too)
She really got me good. (Really got me good)
I said she really got me good. (Really got me good)

You're the first thing I would choose,
but the last thing I need.
Girl I'm stuck on you,
it's so hard to set me free.
You're the first thing I would choose,
but the last thing I need.
You're a liar.
Liar.

You're the first thing I would choose,
but the last thing I need.
Girl I'm stuck on you,
it's so hard to set me free.
You're the first thing I would choose,
but the last thing I need.
'cause you're a liar.
Liar.

(The first thing I'd choose, the last thing I need)
(The first thing I'd choose, the last thing I need)

Liar.
