Baby Love

The Sensations

I remember like it was yesterday
First kiss and I knew you changed the game
You had me exactly where you wanted and I'm on it
And I ain't ever gonna let you get away
Holding hands never made me feel this way
So special, boy it's your, your smile
We so in love, la, la, la, la
Yeah, we so in love, la-la, la, la, la
And I just can't get enough of your l-l-l-love
Yeah, we so in love, love, and I want you to know
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, everything that I could ever dream of
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, every, every, everything
In a minute now, we're still holding it down
Butterflies every time you come around
You make me so crazy, it's crazy, oh baby
And I don't ever wanna be with no one else
You're the only one that ever made me melt
You're special, boy it's your, your style
We so in love, la, la, la, la
Yeah, we so in love, la-la, la, la, la
And I just can't get enough of your l-l-l-love
Yeah, that's all I'm thinking of, love, and I want you to know
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, everything that I could ever dream of
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, everything that I could ever dream of
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, everything that I could ever dream of
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, every, every, everything
Yeah, everything, everything, oh

Everything, everything, oh
You my always and forever
You my sunshine on my mind constant
Think about you all the time
You're my everything
Everything, everything, oh
Everything, everything, oh
You my new school love
You my old school love
And it's so true
You're the one I'm thinking of
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, everything that I could ever dream of
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, every, every, everything
You are my baby love, my baby love
You make the sun come up, oh boy, oh boy
You're my every, every, every, everything
You are my baby love, my baby love
You make the sun come up, oh boy
(You make the sun come up on a cloudy day)
You're my number one, you're my special thing
Everything, everything, oh
Everything, everything, oh
You are my baby, baby, baby, baby love
Everything, everything, oh
Everything, everything, oh
You're my everything
You are my baby, baby, baby, baby love
