

Modern Love

Mother Mother

This is love in the modern day
The modern way
This is love in a different time
A different place

She's the language on the tongue of all the sinner
She is the banquet serving up free love for dinner

And it's true
Yeah, it's true
I fell for you
Yeah, it's true
True, I fell into you

This is love in the modern day
The modern way
This is love in a different time
A different place
