# Make Your Move

## New Found Glory

I know you're losing sleep over me
I know you'll relive every moment
Below sheets where dreams are made
I know you'll cover your eyes
I know you'll quiver when fingers touch your side
But it all coincides some wayMove a little closer, hold me tighter
I'll stay if you're gonna keep me in line, in line
Don't want it to be over, move, move slower
I'll stay if you're gonna keep me in line, in lineI know everything reminds you of me
Even the songs you'd thought I'd never sing
I know you'll mess up your hair
I know you'll do things you would never dare
But it all coincides some wayMove a little closer, hold me tighter
I'll stay if you're gonna keep me in line, in line
Don't want it to be over, move, move slower
I'll stay if you're gonna keep me in lineNow we're here with the lights turned low
You won't regret anything we do
It's up to you, now make your moveMove a little closer, hold me tighter
I'll stay if you're gonna keep me in line, in line
Don't want it to be over, move, move slower
I'll stay if you're gonna keep me
So keep me in lineMove a little closer
(Keep me in line)
Move a little closer
(Keep me in line)
Move a little closer
I'll stay, I'll stay
