

# Now You're In My Dreams

Michael Franks

I was just a stand-in  
Someone love abandoned - not the leading man  
    But my heart yelled "Action"  
    What does "fall in love" mean?  
We rehearsed the Love Scene unaware of this  
    Till we tried The Kiss and  
    Now... now you're in my dreams  
    Love was such a mystery  
Love was ancient history - pleasure chased with pain  
    Till you whispered my name  
    In the soundstage moonlight  
We could not say goodnight - unaccustomed to  
    Happiness so new and  
    Now... now you're in my dreams  
    Now the close-up me and you  
    And every old cliche rings true  
    The Samba begins  
    Fate to the winds  
First it smolders then it burns, you  
    Pass the point of no return, do  
    Lovers stay in love by learning  
How to leave the world at the door and live  
    Live inside their dreams?
