Apocalypso

By: matt betton

1993

They say this universe is bound to blow
But I say we crank up the calypso control
Apocalyp...apocalyp...apocalypso
Now I'm no dancer as dancer's go
But this is one step that you need to know
Apocalyp...apocalyp...apocalypso
We'll be dancin' when we go Planets come and planets go
Apocalypso
Undisturbed the answers flow
Apocalypso Old galaxy can be cold
So I'll hold you close When this earthly light is burning low
This dance will take you to the next plateau
Apocalyp...apocalyp...apocalypso
We'll be dancin' when we go
We'll be dancin' when we go
