## The PG-13s

I tried to call you but the line was busy  
Were you talking to a friend?  
When I tried again much later  
I didn't wanna let it ring again So you can see I've got a problem  
Back by popular demand  
Sometimes I want to keep it from you  
Sometimes I think you'll understand Could you be my little movie star?  
Could you be my long lost girl?  
It's true that I don't really know you  
And I'm alone in the world When I think maybe I need you  
I don't care if it's not true  
'Cause it isn't so much what I need now  
As what I want from you Could you be my little movie star?  
Could you be my long lost girl?  
It's true that I don't really know you  
And I'm alone in the world Could you be my little movie star?  
Could you be my long lost girl?  
It's true that I don't really know you I feel alone, I feel alone
