Dreamon

Cirrha Niva

Wake up, wake up, wake up, wake up !!!I never made my understanding a triumph over you
(I never did, I'll never do)
All these things you're blaming me of..I bet you knew
(that real life was hiding from you)
And you seemed to understand when I said it's all coming
back to haunt.All this crazy stuff made up about me...
Made up about me..You spin around, walk and fall down, get back on your feet
that's what life's about...
It seemed you never got it right as you tried to get up before I struck you down...But there were times that I recall
you've forgotten them maybe..I don't think of 'm either daily..
Yeah we were sweet and sour baby.
You hot and steamy lady..
Look me straight in the eye and tell me you didn't feel like I did..baby
you waited just a second too long
That's why I'm answering you with this song..Dream on my dear...
You catch my drift my dear...Strange dreams I'm falling in and out of for years
I never took them for real
But now I know better because you were the nightmare
that happened to meDream on my dearBut there were times that I recall
you've forgotten them maybe..I don't think of 'm either daily..
Yeah we were sweet and sour baby.
You hot and steamy lady..
Look me straight in the eye and tell me you didn't feel like I did..baby
you waited just a second too long
That's why I'm messing you up with this song..
