

Give Peace a Damn

Public Enemy

mother earths screwed up
beautiful scenery
betray that scenery
pray to machinery start where your head at
some wanna shout
some get caught
many fought
what good is my hood
when god say its no good?
its no good when its no god
i aint askin yall tosin this
every hood is the same
the only difference is the slang
upheavel
no salutations
to say you disturbed
guess whos coming to dinner
same folks who picked your dinner
it don't sound like a winnin
only just the beginning
peace to the world we all living in it
