Left Behind

Beat Happening

horizon turned upside down
on yr way, don't turn around
all the way to always stay
thrown up hands
standing here my pocket full
i got my own way
left behind left behind left behind
the dirt stays inside with me
eyes bright
always right
big strong fight
you will not be turned away
on yr way with lazer beams
you want more things
you want more things
i got my own way
left behind left behind left behind
left behind with cat and mouse
eyes bright
distant light
always right
you want more things
i got my own way
you want more things...
dig a tunnel to the copper mines
go and sacrafice what you find
all the way to always stay
speed devil gone freeway bound
on yr way, don't turn around
I got my own way
left behind
left behind...
