Black Nights

Atb

{One-two-three-four}Black night, white lights
Your eyes amplify
Like a heartbeat
On the downbeat lover
Black night, white lights
On the B-side, I found what I was afterBlack night, white lights
You're so crazy nice
Like a small town
Filled with scyscrapers
Black night, white lights
So divine, take me downtown be my saviourAnd the whole world is you
On this black night
Make everything come true
Under white lightsYou're on my radar, on my radar
With your designer love
Before things get much crazier
There's something you should knowYou're on my radar, on my radar
With your designer love
Sometimes when I watch you sleep
I think I made you upYou're on my radar, on my radar
With your designer love
Before things get much crazier
There's something you should knowYou're on my radar tonight
You areBlack night, white lights
Your hand is locked in mine
Like a chain link
Sealing the exit
Black night, white lights
R.G.B.Y. this photo says I'm takenBlack night, white lights
You're so crazy nice
Like a small town
Filled with scyscrapers
Black night, white lights
So divine, take me downtown be my saviourAnd the whole world is you
On this black night
Make everything come true
Under white lightsYou're on my radar, on my radar
With your designer love
Before things get much crazier

There's something you should knowYou're on my radar, on my radar
With your designer love
Sometimes when I watch you sleep
I think I made you upYou're on my radar, on my radar
With your designer love
Before things get much crazier
There's something you should knowYou're on my radar tonight
You areYou're on my radar, on my radar
With your designer love
Before things get much crazier
There's something you should knowYou're on my radar, on my radar
With your designer love
Sometimes when I watch you sleep
I think I made you upYou're on my radar, on my radar
With your designer love
Before things get much crazier
There's something you should knowOh, my radar
Oh, my radar, tonight
