Thank You

Mozella

la la la la la-la la la la la la la-la la la la la la la la la
la la la la la-la la la la la la la-la la la la la la la la la

mixed up and lost
you showed me love at no cost
and when nobody else cared you were there

down on my luck
you helped my life get unstuck
and when the world went away
you stayed (you stayed)

chorus:
thank you for the good times
thank you for your love
thank you for the joy you've given me
yeah yeah thank you

la la la la la-la la la la la la la-la la la la la la la la la

you fight off my enemies
you'd take a bullet for me
and you know i'd do the same for you
'cause thats how we roll
connected at the soul
and i just want you to know how i feel

chorus:
thank you for the good times
thank you for your love
thank you for the joy you've given me
yeah yeah thank you

la la la la la-la la la la la la la-la la la la la la la la la

thank you
for lovin' me everyday
thank you
for showin' me the way
thank you

for things i never say

la la la la la-la la la la la la la-la la la la la la la la la

thank you for the good times
thank you for your love
thank you for the joy you've given me
yeah yeah

thank you (for lovin' me everyday) for the good times
thank you for your love (for showin' me the way)
thank you for the joy you've given me (for things that i never say)
thank you

la la la la la-la la la la la la la-la la la la la la la la la
la la la la la-la la la la la la la-la la la la la la la la la
