Bonfire

River Town Saints

Verse 1:

trading the moonlight for a mirror ball spinning
two dollar high life's, its the high life that we're living
leaving the cornfield for a little slice of concrete
dragging the mud, gonna dirty up main street
cross county lines, just for the night
two hour light, yeah ay ay ay

Chorus:

slow rollin into town, throw on the four way flashers
don't need no uber baby, gonna ride it on these tractors
talking like crazy, in our lucchese's
we goin out tonight, gonna take this country downtown
light it up, light it up, light it up like a bonfire
light it up, light it up, light it up like a bonfire

Verse 2:

straight up to the front door, valet up this john deere
no velvet rope gonna keep us from a cold beer
they never seen so much camo on the dancefloor
now we don't blend in, but that ain't what we came for
yeah ay ay ay

Chorus:

slow rollin' into town, throw on the four way flashers
don't need no uber baby, gonna ride it on these tractors
talking like crazy, in our lucchese's
we goin' out tonight, gonna take this country downtown
light it up, light it up, light it up like a bonfire
light it up, light it up, light it up like a bonfire

Bridge:

Backwoods to your backstreet
moonshine and your fancy drink
hillbilly and your billie jean

yeah that's what we mean

Chorus:

slow rollin' into town, throw on the four way flashers
don't need no uber baby, gonna ride it on these tractors
talking like crazy, in our lucchese's
we goin' out tonight, gonna take this country downtown
light it up, light it up, light it up like a bonfire
light it up, light it up, light it up like a bonfire
light it up, light it up, light it up like a bonfire
light it up, light it up, light it up like a bonfire
