Reunion

Slum Village

Yo EL and 'Tin kill'n em, Three kill'n 'em
You thought we broke up but we was just reassemblin'
Ladies and gentlemen you barewitnessin
The villa on some classic shit like vans emblems
It's the guerrilla pimps, we bustin denim in the club
That you can't wear ya denim in
Freakin a rhyme til every line ends with a then and than
You dont wanna rump and stomp in Timberlands
Shout to my nigga Killagan
And all of my peeps that rep more D than 12 Eminems
Who let the dogs out and let Dilla in?
Fuck wit this is ya loss Gilligan
Sounds similar I'm not feelin 'em
Get the balls like Venus in Wimbelon
While I'm in them fly whips five Will and them
On some Kim and them All About the Benjamins
Still hereStill here, never left, just switched the style up
Came through, made moves to get the crowd up
Its hard time "V" time nigga ya times up
Get rowed up for the ReunionL kill'n em, Dilla kill'n 'em
Maybe we could hook up again back wit 'Tin and them
Together again like armed forces on some Fantastic Four or Four Horsemen
Can't do it without ya crew boy
Guess who boy, comin' through with two boy
Nobody but us that rap in a clutch
Passed and switched it up like kids in double dutch
Some couldn't feel our style or feel flow
Never talked our slang, never walked our road
All they know is these niggas is tainted
Don't know about those rovers that candy painted
We've been miss quoted, miss construed, miss understood, and over used
So we take this time to set the record straight
Critics skipped and did it anyway
Now you hear our raps wit Dilla and you all on our team
Till you heard 'Tin was gone was apart of the scheme
See! We still got love where was you at at?
Just cuz a nigga go solo think we turn our backs
Maybe we will reunite on some shit like that
But I gotta set it straight 'fore you twists the facts niggaStill here, never left, just switched the style up

Came through, made moves to get the crowd up
Its hard time "V" time nigga ya times up
Get rowed up for the Reunion
