Never Again

Killswitch Engage

I want you to suffer as I have suffered
This is a war of attrition and I won't cease
Nothing can change what you've done
Nothing can change the way I feel
You will never be forgiven
Nothing can change what you've done
Nothing can change the way I feel
I hope you suffer as I have suffered
You are dead to me
And time won't heal what you've done
You have made your grave
Now make your peace
Nothing can change what you've done
Nothing can change the way I feel
You will never be forgiven

Nothing can change what you've done
Nothing can change the way I feel
I hope you suffer as I have suffered
Never again will I be betrayed
Never again will you crush me
Unforgiven, unforgiven
Remember these words, remember my face
Suffer as I have suffered
Nothing can change what you've done
Nothing can change the way I feel
You will never be forgiven
Nothing can change what you've done
Nothing can change the way I feel
I hope you suffer as I have suffered
This is what you deserve
