Bare Bones

[Dark New Day](#)

Hold on, I can't feel you
It's been too long for any rescue
Is it lost, or just too hard to find?
Cut the cord, fade to black
It's better left behind
It's time to celebrate
Everything is gone
We're left with all the waste
Time to get it back
Back to bare bones
Keep on, it will find you
A new light, something to see through
Pay the cost
You're standin' in a line
There's a way to get it back
Just let it fall behind
It's time to celebrate
Everything is gone
We're left with all the waste
Time to get it back
Back to bare bones
(Back to bare bones)
Back to bare bones
(Back to bare bones)
Back to bare bones
(Back to bare bones)
Back to bare bones
You never listen, no you never listen
Never listen, no you never listen to anything I ever say at all
You never see them, no you never see them
You never see them, no you never see the traps set in your way
But does it really matter if we fall?
Cut the cord, fade to black
It's better left behind
It's time to celebrate
Everything is gone
We're left with all the waste
Time to get it back
Back to bare bones

(Back to bare bones)
Back to bare bones
(Back to bare bones)
Back to bare
(Back to bare bones)
Back to bare bones
