Something Out Of Nothing

311

We are the wind on the sea
Sun reflecting you into me
We are the moon and the stars
Darkness hiding mystical heartWe have just begun
The dreams, the nightmares of every one
We are mysterious things
Eternal, perpetual, unendingWe are the yin and the yang
The ending, the middle and The Big Bang
We are the zero and one
The desert, the forest and the oceanI've one conclusion
It's not illusion but it's creativity
The supernatural thing that happens
Between you and me, yeahBecause it's magic, something out of nothing
Magic, something out of nothing
The paranormal became normal
Every time you're through the door
Don't care what they say that's what I sayWe are silver and gold
The eyes that can see the hands that hold
We are all you've heard
A whisper to scream every wordYou are everything
Eternal, perpetual, unending
I am the mystical
The sweet science of seeing the wholeWe are creative
Everyone of us, it's how we live, yeah
We are positive
Everyone of us, it's how we liveI've one conclusion
It's not illusion but it's creativity
The supernatural thing that happens
Between you and me, yeahBecause it's magic, something out of nothing
Magic, something out of nothing
The paranormal became normal
Every time you're through the door
Don't care what they say that's what I sayMagic, something out of nothing
Magic, something out of nothing
The paranormal became normal
Every time you're through the door
Don't care what they say that's what I sayBecause it's magic, because it's magic
Because it's magic, something out of nothing
Don't care what they say that's what I say
