Easy to Love

Edith Frost

You're so easy to love
You're so easy to love
You make it hard for me
To carry through
With all the little things
That I should do 'causeYou're so easy to love
You're just an angel from above
You're just the lover
That i've always dreamed of
It seems you're very easy to loveYou're so easy to love
You're just an angel from above
You're just the lover
That i've always dreamed of
It seems you're very easy to love...
It seems you're very easy to love...
It seems you're very easy to love...
