

Long Summer Days

Frederick McQueen

(Justin Hayward) Long summer days, I keep thinking What to do with my time So many ways, I keep sinking
What's to do with my time (Take me back) I've got time Take me back, I don't mind (Take me back) and let me
start again What's to do in our time Time hurries by, I keep thinking Don't let it by, just keep thinking What's
to do in our time Take me back, I don't mind (Take me back) I've got time (Take me back) and let me start
again Utopia's within our sight (Utopia) Though you think the world's too fast Don't kick it or we lose it It's
that way 'cause we choose it Automation is the cry (Automation) Our minds have been forgotten To understand
me, you must try My thoughts are turning rotten Oh, please, please Please, please Don't mess it up now for me
Don't sit there and condemn me What's to do with my time Please, please, please Long summer days, I keep
thinking So many ways, I keep sinking What's to do with my time (Take me back) I've got time Take me back,
I don't mind (Take me back) and let me start again Ah, ah, ah, ah long summer days
