

Dreamer

Sphere

Dream on, walk through the night
The darkest corners will be your delight
Go on, hold yourself straight
Even if you take fright (get a fright)

Dreamer walk on
Though youâ€™re mystified â€™bout where you belong
Youâ€™re not alone
Thereâ€™s a guiding light, so you canâ€™t be wrong

Dream on, strange is the night
So wide-awake while you are sleeping tight
Roam about (within) hidden rooms
And let your spirit bloom
