

City Lights (feat. Fabolous)

Nikki & Rich

Sky lines and city lights are all I see as I'm wasting away
I need the city to remind me
There is life out there surviving If you could see me, I would thank you,
'Cause I can't see anything you see through
I can't look straight and I can't believe
That the heaters not a burning just a bad dream
I could _ france, so you think I'm in
I could play it off, as life is playing out my sins
But I come on like a traitor fool?
When all I really want is something real from you
Life keeps on moving even when my heart has stopped
This world keeps spinning
Even when your love has left my heart
Time's not affected when you decide to just be still
My thoughts are holding me against my will Sky lines and city lights are all I see as I'm wasting away
You came into my life only to waste it away
Sky lines and city lights are all I see as I'm wasting away
I need the city to remind me
There is life out there surviving
