

In Another Place and Time

Donna Summer

I can't lie, I was attracted too
Somehow the feelings were so strong inside
But I'm not free to be in love with you maybe
Things would be different in another place and time And I can't give you all you want me to
And I know you deserve the best from me
But I can't give you more of all that you long for
I would have loved you in another place and time Dreams aren't always bound to come true
But that's no reason you should cry
'Cause I would have loved you
Really loved you in another place and time I'm hurting deep inside I just want you to know
Oh, I would have loved you, oh yeah, in another place and time
Fate can't always be led by you, the time ain't right for you and I
Ooh, I would have loved you, oh and I loved you
In another place and time, in another place and time
