

So Many Details (Binary Bits Bootleg)

Toro y Moi

This ain't appropriate, now
Brush my hand off your side
There's no one else around
I just wanna tease your eyes
Every week i check these locks
I just wanna go inside
Why is it so dead on a Friday night
I guess the morning's here if you wake by five
You send my life, into somewhere
I can't describe, so many details
What had happened to a time we had
I thought you said you won't ever
You'll never leave me
What happened to us? (i want to try)
Ok I'll take you back
Alright, let's pick up where we started
Don't think that's in my head
I'm not a bit cold hearted
Save yourself tonight, tomorrow I'll get you back
(I don't think I have your problem)
I don't think I have a problem
I don't think I need to fuss
I don't wanna bother you
And there is no reason to rush
You send my life, into somewhere
I can't describe, so many details
What had happened to a time we had
I thought you said you won't ever
You'll never leave me
What happened to us?
You send my life, into somewhere
I can't describe, so many details x 3
