

Unstoppable

Kerrie Roberts

Be strong, be brave, be beautiful
One of these days you'll have it all
If you believe you can
Wake up and hold your head up high
Challenge your future to a fight
Open up your hands

No more lonely house of tears
Slam the door on all your fears
They're not welcome here

Anything is possible, possible
You got to believe and see
That love is unstoppable
You can never go too far
Never been too gone
Cause you can turn it around
You will see that love is unstoppable

(Keep going, keep going)
(Keep pushing, keep pushing)

Sometimes life seems so typical
Somedays you might see a miracle
But if you believe you can
(Keep pushing, keep pushing)

This world is cold, this crazy place
Makes you feel like your losing everything
Your mind, your faith, your way
But you can find it all again
Reclaim your inner self
You know it's not the end

Anything is possible, possible
You got to believe and see
That love is unstoppable
You can never go too far
Never been too gone
Cause you can turn it around

You will see that love is unstoppable

(Keep going, keep going)
Nothing's going to break you down
(Keep pushing, keep pushing)
Stop you now (possible, possible)
Nothing's going to be that bad
Hold you back

You can never go too far
Never been too gone
But you can turn it around
Just believe that any thing's possible

Nothing's going to break you down
Stop you now
Cause love is unstoppable
Anything is possible, possible
You got to believe and see
That love is unstoppable

You can never go too far
Never been too gone
But you can turn it around
You will see that love is unstoppable
