

# Unstoppable

## Kerrie Roberts

Be strong, be brave, be beautiful  
One of these days you'll have it all  
If you believe you can  
Wake up and hold your head up high  
Challenge your future to a fight  
Open up your hands

No more lonely house of tears  
Slam the door on all your fears  
They're not welcome here

Anything is possible, possible  
You got to believe and see  
That love is unstoppable  
You can never go too far  
Never been too gone  
Cause you can turn it around  
You will see that love is unstoppable

(Keep going, keep going)  
(Keep pushing, keep pushing)

Sometimes life seems so typical  
Somedays you might see a miracle  
But if you believe you can  
(Keep pushing, keep pushing)

This world is cold, this crazy place  
Makes you feel like you're losing everything  
Your mind, your faith, your way  
But you can find it all again  
Reclaim your inner self  
You know it's not the end

Anything is possible, possible  
You got to believe and see  
That love is unstoppable  
You can never go too far  
Never been too gone  
Cause you can turn it around

You will see that love is unstoppable

(Keep going, keep going)  
Nothing's going to break you down  
(Keep pushing, keep pushing)  
Stop you now (possible, possible)  
Nothing's going to be that bad  
Hold you back

You can never go too far  
Never been too gone  
But you can turn it around  
Just believe that any thing's possible

Nothing's going to break you down  
Stop you now  
Cause love is unstoppable  
Anything is possible, possible  
You got to believe and see  
That love is unstoppable

You can never go too far  
Never been too gone  
But you can turn it around  
You will see that love is unstoppable
