

# Watch Out

## Loverboy

There's a new love in your life  
I see it in your smile  
There's a new love in your life  
I've known it for a while  
You should have told me from the start  
But, oh no, you had to leave me in the dark  
And now you better watch out  
You better watch out for me  
So now you better watch out  
You better watch out for me, yeah  
Now there's a new love in my life  
Two can play that game  
There's a new love in my life  
Now you got the same  
You should have told me from the start  
You should have told me  
And saved me from this broken heart  
So now you better watch out  
You better watch out for me  
  
So now you better watch out  
You better watch out for me, yeah  
We're shoutin'  
I'm saying, ohh ohh, you better watch out  
Ohh, ohh, you better watch out now  
You should have told me from the start  
You should have told me  
And saved me from this broken heart  
Now you better watch out  
You better watch out for me  
And now you better watch out  
You better watch out for me  
Now look around, baby  
You better watch out for me  
I'm gonna drive you crazy  
You better watch out for me  
'Cause two can play that game  
You better watch out for me  
And I'll be doing the same
