

Submarine (feat. Sevyn Streeter)

Cal Scruby

PRE-HOOK

Can we drink up, sink down
To the bottom of the ocean floor
Won't be back up for air
Ooh baby

HOOK

Been in love with my body, body
It's doing things to my body, body
I can see that you want me, want me
It's doing things to my body
I'll take you down just like a submarine
Give you what you need
Let me take the lead
I'll take you down just like a submarine
Never been so deep
Show you what I mean
Hold on tight cuz we're going down
You know, and I know
Close your eyes cuz we're going down
You know, and I know
Kill the lights cuz we're going down

V1

I can pick you up; I can take you down
I can take you out to eat and switch the words around
I've been in love, I can't get enough of that body
You drive me crazy like figure 8's in that Audi
Go on, show me something I've never seen
Take off that Vicky Secret, tell me everything
Damn, that foreplay got us too excited
Yeah, now I'm deep in it like scuba diving
Flip it over now you can ride it; surfboard, she making waves
Gripping all on that headboard, make it shake til we break the frame
I know you like that when I bite that and you say my name
I hate to watch you go, but I'm glad you came

HOOK

V2

Never thought I'd drown, but I know that ocean wavy
Super soaker, I can tell you feel that motion baby
Rock that boat, it's like the levy broke

Girl that body a tsunami, I get caught up in the storm
She like... aww yeah aww yeah, aww yeah aww yeah
She like... aww yeah aww yeah, aww yeah aww yeah
How long can you go til you need to breathe again?
Wake up in the morning and fuck all day to the evening
Put your ass on the table and wait til it's time to eat again
I go so deep in it; waterbed, go to sleep in it
