Firedance

Kenneth Edge

Yeah, once again I start to wonder
Sailing thoughts on endless sea
Might be you I see reflected from afar
Could be just my fantasyAll my love and emotion
Life is nothing without you
Like a drop finds the ocean
I'm gonna find my way to youLow thunder rollin'
Take me away, away
There's something callin'
Askin' me to playFiredance, it's a firedance
Firedance, just a firedance
Oh yeahI'm the wind against the mountains
I'm the fire deep inside
I feel the magic, the rhythm is my soul
I no longer have to hideJoin me now, come on over
There's a place right here for you
Seize the moment and discover
All the things you always knewLow thunder rollin'
Take me away, away
There's something callin'
Askin' me to playOh, firedance, it's a firedance
Oh, firedance, just a firedance
Oh yeah, just a firedance'Cause it's a firedance, it's a firedance
Oh, firedance, just a firedance
Firedance, it's a firedance
Firedance, just a firedance
Oh yeah, oh, it's a firedance
