

In Public (Featuring Nas)

Kelis

You see, it's this thing (Kelis)
I like being single (ha ha)
Outside, in my mind (Get Tasty)
I liked the way we were (Cookies, Tasty)
(Tasty, yeah, let's go)He was next to me (come closer)
Our flight was s'posed to leave around 2:53
All I wanted to see
Is what would he do if I dropped down to my knees
I want to play a game
If someone come in, it don't matter, just the same (I like it)
Try something fun with me
Let's take our clothes off all over the balcony[Chorus]
Let's get it on in public
Just let it go, I promise that you'll love it
Oh Daddy, don't you want to be my soldier? (yeah)
Ooh-ooh, let's get it on in public, oohDon't try to run from me
I'll make your toes curl up and make your body scream
Come take a walk with me
We can do it over there by all the trees
Drive this car real fast
I'll lay my head and I'll make your body blast
Ow![Chorus]Let's make a movie baby (Sit over there)
Can we get away with it? (Open your legs)
I'll be an animal (yeah)
All lights on (I want to see you)
I like it when we do it to this song (You like that)Let's make a movie baby
Can we get away with it? (I'll be directing, heh)
So nasty
All lights on (I like to see)
I like it when we do it to this song (Yeah, yeah yeah)
Yeah? Talk to meThe pussy or the mouth? That is the question (Okay) like Shakespeare
But my erection is the case here (yeah)
I ain't got time to drive you all the way home
But instead I can slide you to a club bathroom (Okay)
Or a restaurant's men's room
Then I can zoom in your womb
We both get what we want (Okay), then we can assume
To doing what we was, smokin' that bud and chillin'
But first I got it up, before anything, you willing?

To win it, it's animal behavior
La chic, la freak-out, with a sexy beast ma (yeah?), who slays ya
This is for the mature who love the natural love
Making outdoors on the hood of your car (Oh, yeah)
Nas is good at it all when it comes to givin' it ?war?
Do I have to convince you now?
We don't need hotel keys
We jump in the trunk and stain everything upside ya G-string[Chorus: x2]So nasty, girl
If they gon' see us, cool, they gon' see us (ha ha)
I think they seen us, ha ha ha ha
Kelis, sexy beast (yeah)
Yeah, Nasty Nas (that's my boy)
Yeah, uh, outside, in my ride, ha
Let's ride, ma
Yeah, let's go
